It would be cool to see pics of the physical checks bounty hunter get for their vuln reports. Makes it feel more 'real.'

Like the one @lancejssc posted upon hacking the CEO's account of StrongWebmail. It's one of my favorites.

@jeremiahg coincidentally I just got an email from "secure channels" saying they have unbreakable crypto and offering a BMW. #letsplay

@lancejssc @jeremiahg Good luck current stats are ENCRYPTION 155... HACKERS 0. Maybe 156 is your lucky number? @RichardBlech #growthhacking

@SecureChannels @lancejssc @jeremiahg When the crypto defeats you, we'll give you a t-shirt, "Can't Touch This", you'll wear it for a Tweet.

@RichardBlech @SecureChannels @jeremiahg challenge accepted. Proprietary patented crypto is embarrassing in 2015. You should know better.

@lancejssc @SecureChannels @jeremiahg Uh, the crypto isn't propriety, the process applying publicly available crypto is. The output is AES&FIPS

@RichardBlech @SecureChannels @jeremiahg so how do you claim #Unbreakable if you're reliant on ciphers not owned by you?

Lance James @lancejssc · Apr 8

@RichardBlech @SecureChannels @jeremiahg using the concrete security model prove your encryption is secure. That would be a good start.

@lancejssc @RichardBlech @jeremiahg Or you could just try to hack it instead of trying to talk us to death!

Lance James @lancejssc · Apr 8

@SecureChannels @RichardBlech @jeremiahg oh yeah I forgot I'm just helping you guys over tweet in an attempt to over market snake oil. Oops!

Secure Channels Inc @SecureChannels · Apr 8

@lancejssc @RichardBlech @jeremiahg For the record YOU Lance are the one who started tweeting about us. Not the other way around .Branding?

Lance James @lancejssc · Apr 8

@SecureChannels @RichardBlech @jeremiahg in response to a linkedin spam you sent me.

Secure Channels Inc @SecureChannels · Apr 8

@lancejssc @RichardBlech No actually you were tweeting about us to @jeremiahg and we saw it. You spoke to someone here. Why so angry?

Lance James @lancejssc · Apr 8

@SecureChannels @RichardBlech @jeremiahg it's just companies like yours that ruin the info security community. [linkedin.com/today/post/art...](https://www.linkedin.com/post/art...)

@lancejssc @RichardBlech @jeremiahg That's quite an attitude, you are very emotional for a technical guy.
